

AkzoNobel

# THAT FEELING

## WELCOME TO THE WORLD OF AKZONOBEL YACHT COATINGS

Imagine: the breeze is perfect, the water magnificent, you glide over the waves and everything is just right. This feeling of perfection is why people fall in love with boating. At AkzoNobel, we share that love for boating. It's the foundation of our research, technologies and innovations. With our portfolio of yacht coating brands, every boat is protected and ready to go for you to deliver your best work.

PREMIUM YACHT FINISHES 

## AWLGRIP HDT

### HIGH PERFORMANCE POLYURETHANE TOPCOAT

Awlgrip has created a new standard in topcoats with unrivalled appearance combined with superior protection and durability.

This high-performance mirror-like single stage topcoat is specifically tailored for use with AkzoNobel toners, meaning more colors quickly, with new exciting color tools to choose your color faster. Awlgrip HDT is a single stage, sprayable topcoat that combines hardness and micro-scratch resistance with repairability.

- High gloss and excellent distinction of image (DOI)
- Durable and repairable, making maintenance easier
- Tailored for use with AkzoNobel toners, meaning more colors quickly, with new exciting color tools to choose your color faster

## AWLCRAFT 3000

### PREMIUM POLYURETHANE FINISH

Awlcraft® 3000 is the next generation of high gloss premium acrylic urethane topcoats and utilizes the advanced AkzoNobel color platform (same as Awlgrip HDT) delivering enhanced color technology for truer, deeper, and more vibrant colors. Awlcraft® 3000 maintains the trusted, proven, and versatile characteristics of Awlcraft 2000 that applicators and boat owners want, now with enhanced color.

- Provides a buffable, polishable, and repairable finish
- Fast-drying and easy to apply
- Enhanced color technology utilizing AkzoNobel's color platform

## AWLCRAFT SE

**FAST-DRYING WITH A WIDE RANGE OF COLORS**

Awlcraft SE is a revolutionary basecoat with a boundless palette of striking colors, designed to work as one layer of a multi-part basecoat/clearcoat system. Awlcraft SE provides excellent coverage, an effect finish and is applied to an Awlgrip primer or previous Awlgrip finish. The combination of Awlcraft SE with Awlcraft 2000 or Awlgrip HDT Clearcoat forms a high performance, high gloss, robust topcoat system. Awlcraft SE is fast-drying with excellent opacity. Made for quick application and easy repairs, from the smallest scratch to large scale repair. Should the need arise to repair your Awlcraft SE coating system, please refer to the Awlcraft SE repair manual.

- Fast drying formulation allowing multiple coats to be applied within a day
- Excellent hiding power – less coats are required to achieve desired finish, reducing overall work time
- 17,000 colors or custom colors through the MIXIT cloud platform, including color-matching and digital color support
- Repairable and buffable basecoat/clearcoat system, reducing downtime and facilitating maintenance

## AWLCRAFT® CS

**INTERMIXABLE MATT CLEARCOAT**

Awlcraft CS is a two component, intermixable matt clearcoat designed for the yacht market, specially created to be applied on small and larger areas. Whether your boat requires a matt, satin or semi-gloss finish, Awlcraft CS can do the job. Designed to complement the full range of colors and effects of the Awlcraft® SE basecoat. It can also be applied over Awlcraft 2000.

- Provides a smooth, hard finish
- Durable, with good scratch resistance
- Easily achieve any gloss level with the low gloss and medium gloss base
- Complements the colors of Awlcraft SE even with a matt finish
- Improved appearance, avoiding the stripy effect and patchy finish

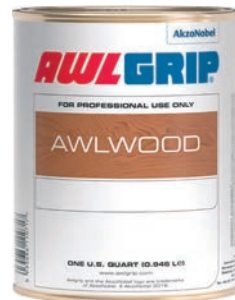

# AWLWOOD

EXTERIOR CLEARS SYSTEM

**Stunning and durable varnishes for a natural-looking finish, delivering long-lasting beauty with unique technology that offers multi-season performance, far exceeding any other current varnish**

- High-performing Primer and Clear Finish system that adheres directly to wood, providing high gloss, distinction of image and enhancing the wood's natural appearance
- Outstanding performance – system remains highly flexible throughout its lifetime, allowing natural substrate movement whilst giving excellent toughness and abrasion resistance
- High-building, fast-curing formulation allows multiple applications per day
- Excellent application properties – applicable over a wide temperature and humidity range using a variety of methods
- Available in Clear, Satin and multi-climate clear

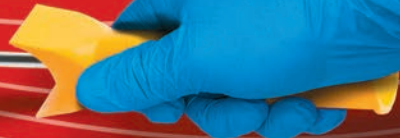

The  
simplest route  
to a  
**dream  
finish**

**One UP and Toplac® Plus**

Plot your course to a superior finish with  
our new easy two-step system

## One UP

### Two-in-one primer and undercoat for one part finishes

One UP is a single pack primer/undercoat for use above the waterline with International one-pack finishes and deck paints. Simple yet effective, making painting easier for DIY customers without compromising on aesthetic appearance or substrate protection.

- Easy to apply by brush and roller with an extra smooth finish
- Best in class system with International one-pack finishes and deck paints
- Replaces Yacht Primer and Pre-Kote whilst still delivering the same levels of adhesion and protection

## Toplac® Plus

### High gloss finish with enhanced colors and improved application

Toplac Plus is a silicone alkyd premium gloss yacht topcoat for all substrates above the waterline. It is easy to apply by roller without the need for tipping

- Eliminates the need for tipping when using a roller
- Improved Distinction of Image (DOI) and application
- Toplac Plus contains UV filters for increased durability
- Use One UP followed by Toplac Plus to deliver the best in class topcoat system offered by International
- Available in 16 popular colors

# Sea Hawk

PREMIUM YACHT FINISHES

## Legendary Performance

- Advanced PL3 resin technology
- Maximum protection in fresh, brackish and saltwater
- Multi-season fouling control

## Trusted by Professionals

- Multi-season fouling control
- Suitable for fiberglass, steel and wood vessels
- High performance in extreme fouling areas

## Proven Protection

- Versatile protection for power and sailboats
- Consistent viscosity providing better flow and rolling ability
- More durable ablative coating

AkzoNobel

## Micron AP

Formulated for use in challenging high fouling areas such as tropical waters and known difficult fouling regions

- Incorporates Biolux® slime blocking technology with a slower polishing rate combined with a boosted biocide level
- Maximum strength antifouling
- Advanced performance for difficult fouling in all environments
- Available in Black and Blue

## Micron Extra 2

Micron Extra 2 offers exceptionally long-lasting protection

- Premium, high strength antifouling for protection in the harshest fouling conditions
- Biolux® technology keeps your hull cleaner for longer
- Wears away with use for minimum paint build-up
- Available in Dover White, Red, Blue, Black, Navy and Grey

---

## Micron One

General purpose, high strength,  
cuprous oxide based antifouling

- Cuprous oxide based antifouling that protects against most conditions
- Wears away with use for low paint build up
- Quick drying and easy to apply
- Available in Red, Blue and Black
